WHY US ?

SLV Industry's produces high-quality modular furniture that is made to last. Our fundamental demands on quality give our products distinct viability where we would rather create one good piece of furniture that lasts a lifetime, rather than a hundred pieces that don't.

At SLV Industry's, we set our quality benchmark not just by the materials used or durability of our products. It also involves the direct environmental impact during their manufacturing phase. This is precisely why we want our furniture to be manufactured from the best materials, while simultaneously having as low an impact on the environment as possible.

Through all stages of the production cycle, we pay special attention to sustainability and eco-positivity – from the raw materials to packaging. We have put in place systems for reducing energy consumption and optimizing the working environment.

Our commitment to sustainability.

Casual - Informal look

Relaxation at its best. Sunset gets its informal look from its casual piping, with a decorative element sewn between the cushions. The two-tone look combining fabric and leather makes this detail a unique highlight.
